

About Genetec

Genetec is a pioneer in the physical security and public safety industry and a global provider of world-class IP license plate recognition (LPR), video surveillance and access control solutions to markets such as transportation, education, retail, gaming, government and more. With sales offices and partnerships around the world, Genetec has established itself as the leader in innovative networked solutions by employing a high level of flexibility and forward-thinking principles into the development of its core technology and business solutions. Genetec's corporate culture is an extension of these very same principles, encouraging a dynamic and innovative workforce that is dedicated to the development of cutting-edge solutions and to exceptional customer care. Our Innovative Solutions

Genetec's Security Center is a unified security platform that blends Genetec's IP license plate recognition (LPR), video surveillance and access control systems within a single innovative solution.

The Security Center consolidates and standardizes the common aspects of security operations such as real-time event and video monitoring, advanced reporting, and alarm management, and makes them easily accessible via a unique client application called the Security Desk. The Security Center offers distinctive features that provide benefits such as revolutionary scalability, unmatched reliability, hardware freedom, and layout flexibility.

Genetec's Security Center Key Components Include:

Omnicast™ is the IP video surveillance system of the Security Center that provides seamless management of digital video, audio and metadata.

Synergis™ is the IP access control system of the Security Center designed to offer end-to-end IP connectivity, from access control reader to client workstation.

AutoVu™ is the IP license plate recognition (LPR) system of the Security Center that accurately reads license plates from virtually any part of the world in both fixed and mobile installations.

Our Professional Services

Genetec's Professional Services complement our full suite of solutions including our unified security platform, our license plate recognition, video surveillance and access control systems. We offer you value-added and custom-tailored services. This includes additional support in the management and engineering of small to large-scale installations, personnel training, custom development and more.

Our Technical Assistance Center

With a comprehensive line of Software Maintenance Agreements (SMA), Genetec provides customers and partners with varying levels of technical assistance depending on a business' specific needs. Ranging from standard business hour packages to premium 24/7 support, all of our SMAs include free software upgrades, access to software updates and access to Genetec's Technical Assistance Center website and knowledge base.
