

Introducing Video Monitoring

like never before

What You see

- Professional and affordable video monitoring
- Eliminate false alarm dispatched and fees
- Dispatch police or Disregard from your cell phone
- Increase police response priority & apprehension rates

We are proud to introduce our revolutionary new visual monitoring solution. Until now, providing fast & reliable video verification has not been affordable or effective.

Welcome the Visual Verification Bridge.

A small, affordable device that “Bridges” your new or current alarm system and camera system into one powerful security solution.

This solution will give our central station access to your cameras so that when an alarm occurs, our professionally trained operators will have immediate visual awareness of your property.
